ELECTRIC DISTRIBUTION BOARD AND METER POSITION

The position of your Electric Distribution Board (i.e. fusebox/consumer unit) and meter is:

A) The distribution board is inside the cupboard near the front door
B) The electric meter outside near the front door, inside the white plastic housing

If one of your circuit breakers trips:

a) switch off the main electric isolator switch

b) switch your circuit breaker back up

c) turn the main electric isolator switch back on

If your circuit breaker trips again, then LEAVE IT and phone the landlord.

IF YOU ARE UNSURE ABOUT ANYTHING THEN LEAVE IT!
