

## **ELECTRIC DISTRIBUTION BOARD AND METER POSITION**

The position of your Electric Distribution Board (i.e. fusebox/consumer unit) and meter is **at the bottom of the stairs just above your front door inside a wall cupboard.**

**Your electric meter is just outside your front door inside the wall cupboard.**

If one of your circuit breakers trips:

- a) switch off the main electric isolator switch
- b) switch your circuit breaker back up
- c) turn the main electric isolator switch back on

If your circuit breaker trips again, then LEAVE IT and phone the landlord.

**IF YOU ARE UNSURE ABOUT ANYTHING THEN LEAVE IT!**
